Open Water Diver Certification

Day 1	16:00 Theory class to get to know the equipment and its assembly and to be able to leave it ready to go to the pool the next day.
Day 2	8:00 a.m. Pool dive number 1 11:00 Sea Dive Number 1 After the dive, there will be some tests to review the theory
Day 3	8:00 a.m. Pool dive number 2 11:00 Sea Dive Number 2 After the dive, there will be some tests to review the theory
Day 4	8:00 Sea dive number 3 11:00 Sea dive number 4 After the immersion, the final exam of the theory will be done.

This is the proposed schedule, but sessions do not necessarily have to be on consecutive days. The start day of the course is not defined exactly, it can start at any time of the week as long as we are a minimum of two participants. This is our recommendation to ensure that knowledge is acquired correctly and at an appropriate pace, but if you don't have that much time, it can be adapted. To obtain the certification, it will be mandatory to achieve theoretical and practical knowledge without a time limit.

What do I need to do to get started?

The first step to start the course will be to activate ourselves as a SSI diver, doing this will be as easy as filling in your details in this link.
